Swedish Factory Workers' Union, gathering more than 100,000 members, will declare its protest against the oppression which is exerting the miners in the copper mine of "El Teniente".

It is infringement of human rights not having the right to discharge trade union duties freely. It is also completely irreconcilable with human rights to dismiss 60 working trade union representatives at the "El Teniente".

We declare our solidarity with the miners and insist on those dismissed immediately being re-employed.

With the authority of yours we kindly ask you to send on this message to the government of Chile.

Sincerely  
SWEDISH FACTORY WORKERS' UNION

  
Enar Agren  
President
