"The Same Hand has written all the Anti-Chilean Documents"

Article contained in the Chilean newspaper "La Segunda", 23.11.77

The article goes into detail on the report of the ad hoc Working Group on Chile of the UN Human Rights Commission, currently under consideration by the UNGA. It attacks at length Amb. Allana, chairman of the Working Group. It continues:

"...THE SAME HAND

"* In reality, the third report prepared by the ad hoc working group on the situation of human rights in Chile differs very little from the previous ones. It seems as though the same hand has written all the documents against Chile which have been submitted to the "investigators".

"Curiously, the ad hoc working group's document bases its accusations repeatedly as a source of information on a mission sent to Chile under the auspices of the World Council of Churches.

"The World Council of Churches has its headquarters across from the United Nations, only a few meters from the Chilean Mission, at number 777 of said avenue. In its eighth floor there is a large office whose central part is occupied by a photograph of ... Salvador Allende.

"As if this were not enough, (the document) cites several times as a source of information a publication called "News of Chile", published by "doctors, technicians and assistants in the public health sector who are in exile", distributed in Geneva.

"...the presentation of the document will give rise to new verbal confrontations among members of the Chilean Mission and those of delegations which act under orders from Moscow.
